

BJ SLITTER

Application : 4 shafts auto turret exchange, suitable for slitting/rewinding big roll OPP packaging tape (specially for carton sealing machine)

Specification :

Machine Width :	1.0M/1.3M/1.6M	Max. Unwind O.D :	1000mm
Machine Speed :	250M / Min	Min. Slitting Width :	36mm
Rewind Core I.D :	77mm	Max. Rewind O.D :	410mm

Feature :

Paper Core Loader

1. Equipped with separated shaft type unwind base and auto tension controller.
2. Equipped with the noise reduction hood for attenuating the production sound and jumbo roll pick-up lifter as well
3. Driven by connective 3 A.C motors, 1 for web wound out control, 2 for rewind linear speed control which is auto calculating and adjustable by ultra-sonic detector signal feedback.
4. Equipped differential shafts to make tension on each roll the same even when the web thickness is un-even at all.
5. Tabbing is automatic applied during the production and the machine stops at the presetting length.
6. Central control system is as PLC unit with LCD touch panel, which has friendly operation for all data setting.
7. Finished rolls unload and paper cores reload working by core loader, it increases full production capacity.

Optional Parts :

1. Core Alum. Mold : It is needed when slitting different sizes, any sizes can be made on your request.
2. Special Unwind Base : Separated type with shaftless hydraulic core chuck can be equipped for efficient and quick performance on jumbo roll change.
3. Finished Rolls Crane : For lifting rewind shafts and unloading finished rolls.
4. Air Score Knife : Available for slitting paper and cloth tapes after this knife is equipped on.
