

# EB SLITTER/REWINDER

**Application :** Center-surface type winding, suitable for slitting/rewinding various papers , label stocks...etc.

**Specification :**

Machine Width :	1.0M/1.3M/1.6M	Max. Unwind O.D :	1000mm
Rewind Core I.D :	77mm	Min. Slitting Width :	50mm (depend on rewind O.D)
Max. Rewind O.D :	1000mm	Machine Speed :	200M / Min

**Feature :**

1. Equipped with separated shaft type unwind base, auto web guide and auto unwind tension controller.
2. Center-surface type winding to make tight and stable rewinding on finished rolls.
3. Driven by connective 3 A.C motors, 1 for web feeding, 2 for rewind tension control which automatically increasing torque on the rewind shafts when the finished roll O.D is getting bigger.
4. Slitting by shear cutter, which is available for converting various papers & laminated materials.

**Optional Parts :**

1. Unwind Pick-Up Lift : For loading jumbo roll on the machine quickly and time saving.
2. Connected Splice Table : Splice materials smoothly at 5 degree or horizontal in order to decrease production loss.
3. Finished Rolls Crane : For lifting rewind shafts and unloading finished rolls.
4. Special Unwind Base : Separated type with shaftless hydraulic core chuck can be equipped for efficient and quick performance on jumbo roll change.
5. Slitting Knife : Able to install air score knife for converting other different materials.
