

SDT SLITTER / REWINDER

Application : Single shaft center-surface type winding, suitable for slitting various adhesive tapes.

Specification :

Machine Width :	1.0M/1.3M/1.6M	Max. Unwind O.D :	800mm
Rewind Core I.D :	77mm	Min. Slitting Width :	100mm (as per rewind O.D)
Max. Rewind O.D :	600mm	Machine Speed :	120M / Min

Feature :

1. Equipped with the connected shaft type unwind base, which is convenience on operation and space saving.
2. Driven by connective 2 A.C motors, 1 for web feeding, 1 for rewind tension control which automatically increasing toque on the rewind shafts when the finished roll O.D is getting bigger.
3. Center-surface type winding is able to rewind various materials on different requests, and rewind arm is automatic movable type which is convenience on finished rolls unloading.

Optional Parts :

1. Unwind Pick-Up Lift : For loading jumbo roll on the machine quickly and time saving. (unwind base is shaft type)
2. Slitting Device : Able to be equipped with air score knife for big size slitting and trimming.
3. Finished Rolls Lifter : Put all finished rolls on a lift table for unloading, which is controlled by electric.
4. Special Unwind Base : Separated shaft type unwind base, and only can be equipped with auto web guide & noise reduction hood after replacing on this base.
5. Web Feeding Control : Web feeding by motor control from unwind section is needed for easy stretch materials.
